DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. **Claim 1-14,19-21, 28-32 drawn to a medicament dispenser and inhaler, classified in class 128, subclass 200.23.**
- II. **Claims 15-18,22-27 drawn to a regulator, classified in class 128, subclass 200.19 and class 237, subclass 65**

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and I are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, claims corresponding to group I disclose the invention being a dispenser/inhaler whereas claims corresponding to group II disclose the invention being a regulator.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Haymond, William on 9/27/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
